

## PEACE RUMOR

### Is Now Current Anent the Russo-Japanese Conflict.

### But Actual News Tells of More Fighting and Japanese Success.

### A Paris Newspaper Prints a Special Edition Reiterating The Report That Port Arthur Has Succumbed.

Paris, May 14.—(Bulletin.)—An unconfirmed rumor is in circulation here that Port Arthur has fallen, with a loss of 10,000 men in the engagement.

Paris, May 14.—A special edition of the newspaper La France prints a telegram from St. Petersburg, reiterating the rumor that Port Arthur has fallen. The telegram adds: "Port Arthur fell after fierce fighting, in which it is estimated that over 10,000 were killed. The news is concealed in official circles, though a personal friend of an officer of the general staff is reported to have said that consternation is painted on the faces of all government officials."

#### PEACE RUMORS.

London, May 14.—Special dispatches to The Times from Berlin say there is excellent authority for the statement that there is a strong possibility of peace in the far East. The basis of settlement is to be the independence of Korea, under the protectorate of Japan, and Manchuria to remain Chinese territory. In a secret treaty between China and Japan the integrity of Manchuria has been guaranteed by Japan.

#### JOKES ON THE CZAR.

St. Petersburg, May 14.—The imperial entourage has lately been scandalized by the number of practical jokes which have been played on the czar. For example, one night his majesty's bed was filled with cheap ikons and buttons cut from his own uniforms. This prank was followed by others equally as harmless, but annoying. Finally his majesty's writing desk was covered with toy Japanese soldiers. This last was so pronounced a case of lese majeste that a most careful investigation was made, with the result that the culprit was discovered. He is a page in the palace, whose mind has been unbalanced by the excitement incident to the war.

London, May 14.—The New-Chung correspondent of the Reuter Telegram company wires that a rumor has reached there of an engagement between Russian and Japanese forces near Liao-Yang.

Chefoo, May 14.—Skirmishing has been reported southeast of Heicheng, from which point the Japanese are advancing in force. It is believed the three Japanese divisions which are marching on that point will reach their objective today or Sunday.

Reports reach here that the Russians are withdrawing from Heicheng, fearing they will be cut off and the resistance there probably will be nominal, if there is any resistance at all.

No attack is expected on Liao-yang until the railroad has been cleared by the western column and it is ready to advance.

The Japanese control of the Liao-tung peninsula, outside of Port Arthur, is complete and reinforcements are being rushed to the army which is investing the Russian fortress.

Indications from news received from private sources is that General Oku will himself command the investing force which is placed now at 25,000 men and which will within three or four days be increased to nearly 40,000 men. It is not believed the Russians have more than 15,000 men in Port Arthur, including the sailors from the fleet.

Japanese advices say that all the efforts to clear the Port Arthur chan-

nel have been unavailing and that nothing larger than a torpedo boat destroyer can get out.

The Japanese fleet is keeping a close watch out on the port and in the event of block being removed the Russians would find themselves facing an overwhelming force.

London, May 14.—The Daily Mail this morning publishes a dispatch from Constantinople, according to which Russia is concentrating troops just beyond the Caucasus. The most reliable information, the dispatch says, fixes the present total of troops at 125,000.

Paris, May 14.—An official dispatch to the foreign office from Constantinople confirms the reports that Turkish troops have burned villages throughout the Sassoun district of Armenia, killing the inhabitants. The French ambassador, M. Constans, has joined with the Russian and British ambassadors, in sending consuls to Erzeroum, in the hope of limiting the destruction and bloodshed.

However, the official advices, although brief, indicate that the work of exterminating the Armenians occupying the mountainous district of Sassoun is practically accomplished. The Turkish methods appear to have been much the same as those adopted during the Armenian massacres. The officials' report do not give exact details as to the number of towns burned and people killed, but they show that the action of the Turks has been sweeping.

The French authorities were advised some time ago that Turkey was taking advantage of Russia's preoccupation in the Far East and intended to adopt a decisive course toward the rebellious Armenians. The information then showed that the Turks would begin the work of suppression about April 15. In order to prevent this, the powers made an energetic protest. This delayed Turkey's action, which, however has now been executed with the same severity as at first contemplated.

## GOLD

To the Amount of Fifty Million Has Gone From Europe in Past Month.

New York, May 14.—Additional engagements of \$20,000,000 gold were made this morning at the assay office for export on Tuesday. This makes a total of \$10,000,000 to be shipped to Paris on that day and completely exhausted the supply of gold bars at the assay office for the present.

Five million dollars in gold bars was exported on today's steamers. When the amount engaged for shipment Tuesday is sent a total of \$29,000,000 in gold will have been exported since April when the movement began. Foreign exchange experts say that the movement is only half over.

Pittsburg, May 14.—Today's cattle light; steady; sheep light; steady; hogs, six double decks; higher.

## MOTHER'S DEATH CAUSED BY JOY

### Happy Her Heart Could Not Stand Strain

When She Heard Her Son Had Attained the Goal His Father Had Missed.

Washington, May 14.—Excessive joy caused the death of Mrs. Bertha Drennan, a soldier's widow, at Ft. Myer, Va., in the judgment of the attending physician. Mrs. Drennan's husband, the late Patrick Drennan, was an ordnance sergeant when he died three years ago and it was the widow's fondest ambition that her son, Jeremiah, should get into the regular army as a commissioned officer. Her husband, after serving faithfully for 30 years, was a "noncom." at the time of his death, and the mother wanted to see her boy reach the goal which his father did not attain. Sunday morning the president announced his appointments of cadets to the military academy at West Point. Among the names was that of Jeremiah A. Drennan, son of the late Sergeant Drennan. Wednesday morning at 6 o'clock Bertha Drennan died. The diagnosis of the physician was heart failure, superinduced by emotional excitement. When the fond mother heard the news of the appointment she suffered a relapse. The doctor who was called found her heart action greatly disturbed. But instead of complaining, there was nothing but gladness and joy—joy almost too great for expression. Her boy, her son Patrick's, was to be an army officer. His career was settled. There remained but the examination to be passed, and there was little doubt of the result. The happiness was too great. Medical aid was unavailing. The proud and happy heart could not stand the strain and broke for joy.

The funeral took place and it was a touching ceremony which Chaplain Pierce was called upon to perform in St. George's chapel, of the fort, Thursday afternoon. He had buried the husband. He had forwarded the boy's claim to an appointment. He now had to bury the mother. But, as he and other officers have thought, perhaps it was as well if not better to die from joy and gratified ambition as from any other cause.

## DIVORCED

ON SCHUETZ'S ACCOUNT, BUT WOULD NOT MARRY HIM,

So He Shot the Woman Very Seriously and Then Turned the Weapon on Himself.

Pittsburg, May 14.—Fred Schuetz, son of Henry Schuetz, Jr., of the Schuetz & Renschhausen Co., brewers, last night shot and seriously wounded Mrs. Minnie McCormick and then fatally shot himself. Young Schuetz was named as co-respondent in a divorce suit brought by Mrs. McCormick's husband some time ago, and since then has been attending the woman, and it is said wanted to marry her. She, however, would not agree to this and the shooting is supposed to have resulted from a quarrel over the matter.

The couple met on a street car and when Mrs. McCormick reached her home in Allegheny she was followed from the car by Schuetz, who said: "Well, we will end it here," and fired the bullet entering the woman's left side near the heart. She collapsed and Schuetz, thinking she was dead, shot himself in the abdomen twice. He is dying at the hospital. Mrs. McCormick, though seriously wounded, will probably recover.

WILL NOT ALLOW IMMIGRANTS TO PANAMA.

Marseilles, France, May 14.—The government of Panama has notified Consul General Skinner that an order has been promulgated prohibiting the immigration of Syrians and Turks to the isthmus. The order resulted from the fact that a large number of Levantine immigrants have arrived here intending to go to Panama.

## NEGRO

### Fatally Shot at Xenia Ohio

BY OFFICER WHOM HE HAD ATTACKED

Officer Was Stunned by Fist Blow on the Head.

DREW HIS PISTOL AND FIRED.

The Bullet Taking Effect in the Negro's Stomach—Latter Has Twice Been Insane.

Xenia, O., May 14.—Walter Carl, colored, was shot and fatally wounded by Edward Williams, a policeman in the police station Saturday morning. Williams was alone in the office when Carl entered. The officer spoke to him about a complaint his wife had made against him. This seemed to irritate Carl and he struck Williams over the head with a heavy piece of iron which he had concealed under his coat. Williams was stunned by the blow and the negro proceeded to follow it up with others when Williams drew his revolver and fired. One bullet passed through Carl's stomach, inflicting a wound which will cause his death. Carl had twice been an inmate of an insane asylum.

## MARCONI

KEPT UP WIRELESS COMMUNICATION FOR 1,700 MILES.

And Announces That He Can Keep a Vessel at All Times in Touch With Land.

New York, May 14.—Signor Marconi, the inventor of wireless telegraphy, was a passenger on the steamship Campania, which arrived today. He announced that he had demonstrated the possibility of keeping a steamship in communication with the land throughout an entire voyage. During the trip he had kept in communication with the station at Faldhu until 1,700 miles from Liverpool. Since this is over half the distance from Liverpool to New York, it would be very simple to pick up communication with the station at Cape Cod after Faldhu had been lost. Marconi said that he had made arrangements with the Cunard line to furnish 200 words daily for a newspaper to be published on each of the vessels of the line.

## HON. JOHN F. LAMB

Chairman of the Indiana National Delegation to St. Louis

Indianapolis, May 11.—The delegates to the Democratic National convention met last night and perfected an organization electing John F. Lamb, Terr Haute, chairman; Chairman O'Brien, secretary; J. J. Nolan, Evansville, secretary, and decided to meet the 9th of July at the Southern hotel, St. Louis. The question of policy to be pursued was discussed. While the instructions are rigid and the delegates are determined to stick to John Parker as long as he is a factor of it was concluded that the instructions do not bind them to stick to him when he has no show.

SIX NEGRO MEN ACTED AS PALLBEARERS

Richmond, Va., May 14.—In compliance with a request of Mrs. S. Wills, of Covington, Va., six active pallbearers at her funeral Friday were six negro men, former slaves or sons of former slaves owned by the family, whose devotion to their mistress has stood the test of time and emancipation. The funeral was from the Covington Episcopal church. The honorary pallbearers were from among the most prominent men in town.

## SHERIFF WILL USE ARTILLERY

### To Dislodge an Outlaw in Wisconsin

John F. Dietz Claims \$14,000 and Has Tied Up All Sawmills in Chippewa Valley.

Chippewa Falls, Wis., May 14.—John F. Dietz has moved into a stone fort building near his home on the banks of Apple Creek and is prepared for a long resistance. Sixty armed men left Friday night for the scene, but Deputy Sheriff Giblin says that any attempt to storm the stone house will result in a heavy loss of life and a seige likely will be undertaken.

Dietz has succeeded practically in tying up all of the sawmills in the Chippewa Valley by holding the long drive at the Cameron Dam. Dietz claims \$14,000 from the Chippewa Lumber company as tolls on logs going over the dam, claiming he has a right to enforce payment because the land on both sides of the stream is his property.

Minneapolis, Minn., May 14.—Artillery is to be used to dislodge John F. Dietz, the outlaw who is holding the officers of Wisconsin at bay near his home on the banks of Apple Creek. The Wisconsin authorities have accepted the services of Deputy Sheriff George Loh of this (Hennepin county) and he will leave at once. He will first go to Madison, where arrangements for artillery will be made. The field guns will be used to level the stone fort in which Dietz is barricaded.

Trains will shortly commence to run regularly between Kamsi and the Gold Coast, making the journey in a day.

## LOAN

OF JAPAN OVER SUBSCRIBED SEVEN TIMES.

The Money Poured Into New York to the Firm That Floated the Bonds.

New York, May 14.—The Japanese loan in this country was over-subscribed about seven times. The subscription closed yesterday and it was not until late last night that the allotments were arranged by the firm of Kuhn, Loeb & Co. So far as possible the small subscribers, representing the people throughout the country will receive the full amount of their subscriptions. The following interesting statement has been made by Kuhn, Loeb & Co.: "Patriotism and seven per cent appear to have worked together wonderfully well in the United States in reference to this loan. Subscriptions have come in from all over the country and it has been particularly interesting to note the underlying sympathy to note a large number of subscriptions from women."

The members of the syndicate have received quantities of written letters including small subscriptions to the loan, from Oshkosh, Kalamazoo and Holland, in which the writers express their sympathy and interest in the success of Japan in the war with Russia and want the underwriters to understand that the subscription was not only for the purpose of investment, but an assurance of the deep interest on the part of the subscribers in the Japanese cause."

The war has made a boom in Europe for Korean postage stamps. Japan established a postal system in Korea in 1881, but the stamps of the first issue are now very scarce, as the Koreans burned up most of it by setting fire to the post-office at Seoul as a protest against the innovation. Another issue was not made for 16 years.

# Married Women

Every woman covets a  
shapely, pretty figure, and  
many of them deplore the  
loss of their girlish forms  
after marriage. The bearing  
of children is often destructive  
to the mother's shapeliness.  
All of this can be avoided,  
however, by the use of **Mother's Friend** before baby comes, as this  
great liniment always prepares the body for the strain upon it, and  
preserves the symmetry of her form. **Mother's Friend** overcomes all the  
danger of child-birth, and carries the expectant mother safely through  
this critical period without pain. It is woman's greatest blessing.  
Thousands gratefully tell of the benefit and relief derived from the  
use of this wonderful  
remedy. Sold by all  
druggists at \$1.00 per  
bottle. Our little  
book, telling all about  
this liniment, will be sent free.

**Economy in Advertising.**

If you could meet your entire trade personally and could explain to each the merits of all your different goods you would not need to advertise. You can't do this. As a matter of economy you advertise—tell the public what you have for sale. Each year additional business will result. It makes a man set to do business, less work and worry, more satisfaction all around.

If you are satisfied with just "sleeping store" don't advertise. If your blood is red, if you want to grow, if you feel a satisfaction in being a leader in your line, advertise. Do it right. Make it a feature of your work, not a side issue, and the cash assets at the end of each year will surely determine the value of advertising.—Printers' Ink

The Russian attempt to cut the Japanese communications in Northwest Korea by means of a cavalry raid appears thus far to have been a pitiful and impotent undertaking. Only a couple of thousand seem to have been engaged in the raid. Some five hundred of these succeeded in reaching Anju, only to meet with a repulse by a force of Japanese reported to have been only one-twentieth of their number. The result of the raid will probably ensure to the benefit of the Japanese, not only on account of the prestige gained by the heroic defense made by the small garrison at Anju, but also because it will put them on their guard against a similar attempt in the future by a more formidable force.

Some of the Republican organs, whose editors are either ignorant of the facts or else willfully misrepresent them, have charged that Judge Parker was derelict in his duty as a trustee of an Ulster county, N. Y., banking institution, which some years ago was compelled to suspend payment with an alleged large loss to the depositors. As a matter of fact, however, it was Judge Parker who saved the depositors from loss, and placed the institution on its feet again after it had suspended. He devised a novel plan to that end, which stood the test of the courts and worked out so satisfactorily that he was requested to become president of the reorganized institution. He agreed only upon condition that he should receive no salary. The outcome of the matter was the payment of the depositors in full and the establishment of the institution on a sounder basis than ever.

## Indiana for Parker.

(Pittsburg Post.)  
The Indiana Democratic state convention Thursday instructed the delegation from that state to the national Democratic convention to vote as a unit for the nomination of Judge Alton B. Parker, of New York, for President. The victory of the friends of Judge Parker over those of William R. Hearst was complete. Prior to the assembling of the convention the congressional district delegations elected national delegates, the result being that Parker men were chosen in 12 out of the 13 districts.

The advocates of Mr. Hearst tried to prevent the adoption of the unit rule in favor of Parker by the state convention, so as to permit their two district delegates to vote for their candidate. They made the plea that unless their wishes were acceded to the election of a Democratic congressman in the district might be endangered. This plea was effective with some of the friends of Judge Parker, but it did not avail, there being only 582 votes cast for the Hearst men's amendment, while 951 were cast against it. On a previous and more decided test of the strength of the two candidates upon the organization of the convention the Parker men cast 1,091 and the Hearst men 468.

The outcome of the convention must inevitably greatly strengthen the candidacy of Judge Parker, who is now assured of the support of the three important doubtful states whose votes are absolutely necessary to the election of a Democratic candidate—New York, Connecticut and Indiana. It also effectually disposes of the prospects of Mr. Hearst figuring as a formidable candidate. His showstout supporters will no doubt perceive this fact, and will now endeavor to secure the nomination of some other candidate than either Hearst or Parker. The demonstration with which the name of Mayor McClellan was greeted in the Indiana convention may indicate the direction in which the Hearst and anti-Parker men may try to influence the national convention.

# LIFE TENURE IN OFFICE

## Is What Republican Party Will Be Absolutely Committed to by Coming State Convention

Columbus, O., May 14.—It is fully determined that the Republican State convention in this city next Tuesday and Wednesday will absolutely commit the G. O. P. in favor of life tenure in office as represented by the third term candidacy of Secretary of State L. C. Laylin. The tremendous protest that has gone up from among the rank and file of the Republican party has not been sufficient to prevent the bosses from carrying out their compact with the auditor of state and secretary of state, the former of whom is already serving his third term and the latter of whom will be re-nominated next week. It may seem strange to the average mind that the bosses of the Republican party in this state are determined to take such chances with their normal plurality. One would naturally suppose that they could imagine circumstances under which that plurality might be overturned, and among these circumstances would be continued adherence to the third-term idea. The fact is, however, that the compact made while Senator Hanna was still alive now holds good among the controlling influences of Republican politics, for the reason that the experience of the auditor and secretary of state with inside Republican politics has made those officers indispensable to the surviving Republican bosses as a matter of self-defense. Messrs. Guilbert and Laylin know too much about the operations of the dominant Republican machine to have their services dispensed with. That is why Guilbert was re-nominated and why Laylin will be. If either one of them wants a fourth or a fifth term he can have it for the asking, provided the present ruling powers continue in this state.

The Republican state convention will not be permitted to be a deliberative body on the subject of Mr. Laylin's nomination. The bosses have taken no chances on that proposition, but have thrust instructions for the secretary of state down the throats of the rank and file in county conventions until on the arrival of the delegates to the state convention enough of them are under the control of the machine to put the third term idea into practical effect. In every county where this has been done there has been vigorous kicking on the part of disgusted Republicans, but to no avail. The principle of life tenure in office will now be passed up for endorsement to all the voters of Ohio, and it remains to be seen whether they will approve the doctrine or reject it.

# SEATING CAPACITY

In a paper recently read before the Institute of Mining Engineers in London, J. M. McLaren gave some curious facts about gold mining in Great Britain and Ireland. In all, gold of the value of \$2,000,000 has been found on this England contributed barely \$2,000; Wales, \$1,000,000, and Ireland, \$115,000. The largest nugget weighing 22 ounces was discovered in Ireland. It was made into a snuffbox for George III.

## A FACT PROVEN.

Should Convince Even the Most Skeptical of Its Truth.

If there is the slightest doubt in the minds of any that Dandruff germs do not exist, their belief is compelled by the fact that a rabbit inoculated with the germs became bald in six weeks' time.

It must be apparent to any person therefore that the only prevention of baldness is the destruction of the germ, which act is successfully accomplished in one hundred per cent. of cases by the application of Newbro's Herpicide. Dandruff is caused by the same germ which causes baldness and can be prevented with the same remedy—Newbro's Herpicide.

Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

## You Can Be Cured.

No. 11 Cedar Terrace,  
HOT SPRINGS, ARK., April 23, 1903.

When I was first married I found that my strength and health were gradually diminishing. I became nervous and irritable, and was in bed a week and sometimes ten days of every month, and had intense bearing down pains. My husband had the best physician for me and I used his medicine for nearly four months, but I gradually grew worse, had less strength, and finally, I was unable to leave my bed at all.

A friend who was calling on me brought me a bottle of Wine of Cardui and was so loud in its praise that I told her that I would take it to please her. I was surprised and pleased that before I had used the bottle I really felt better, so I kept on using it. Eight bottles brought back my lost health and strength, and I have not had a sick day in six months.

### Modern Woodmen.

At the last regular meeting of Cedar Camp, M. W. A., held on Wednesday evening, considerable business of importance was transacted and the entire meeting was probably one of the best ever held by this progressive organization. Several candidates were adopted and the work of the officers and team was very good indeed.

An invitation was received from the G. A. R. to have the Woodman Forester team participate in the parade on Memorial Day and the invitation was accepted by Chief Forester Richardson.

Committees were appointed to prepare for Woodmen Memorial day, on June 5. A committee appointed some time ago to prepare some suitable entertainment to take place when the membership shall have reached 1,000, will make full report at the next meeting. The Camp now numbers 990 members, and the 1,000 mark will be passed before the time set for the celebration.

## BRAVE PRIEST

Risked His Life in a Successful Attempt to Save the Holy Sacrament From Flames

New Rochelle, N. Y., May 14.—With flames raging fiercely about him Father Kennedy a Paulist missionary, risked his life at a fire in the Church of the Blessed Sacrament Friday to save the blessed sacrament.

The priest, asleep in the rectory when the fire broke out at 1:30 o'clock, was awakened by the crackling of the flames. Without waiting to dress he rushed into the church in his night clothes to where the host rested on the altar.

The flames spread so rapidly that the priest could not run through the side entrance, so with his sacred burden he fought his way through a blinding smoke to the main entrance. In his haste he had no time to put on his shoes, and as he ran through the church the hot floor blistered his feet.

### INTERESTING NEWS CONCERNING THE IDLEWILDE TEAM.

Coshocton Here Today and Sunday—Schedule for Next Week—Another Game With Denison

The strong Coshocton team which took three straight games from Piqua and three straight from Lancaster, is here for two games with Newark. The Idlewilde team is one of the few that has been able to wrest a game from Coshocton. The latter team took one from Newark and Newark took one game from them.

Their three pitchers are McCord who is under contract with the Louisville team, West, and Doyle, who pitched for the Nashville team last year in the Southern League. Lefty Snyder was scheduled to pitch the game for Newark Saturday and either Stone or Mason will be in the box Sunday. The Sunday game will probably be witnessed by one of the largest crowds that ever assembled in the Idlewilde grounds, as but few teams have ever made the record made by the Coshocton aggregation in so short a time, having taken ten straight games from the strongest teams in the state.

Idlewilde leaves Monday for Lancaster where they will play two games. Lancaster plays here Wednesday and Thursday. Newark will appear in two games in Zanesville Friday and Saturday. Mansfield will be the attraction here Sunday, May 22.

The grounds at the park are greatly improved this year by a raised pitcher's box. This does away with water settling in the diamond and causing wet grounds.

Many players of experience say that the Idlewilde grounds are the best they have ever played on when it comes to dry grounds.

It can rain all morning and the grounds are in condition for playing in the afternoon.

McAllister received an injured finger in the last game with Mansfield by being hit on the end of the finger by a fly.

Howard Stone has been spending a couple of days at his home in Georgeville with his friends and relatives there. He returned Saturday afternoon and is in fine shape for the Sunday game.

Another game has been arranged for with the Denison team. The game will occur in Granville and will take place the latter part of May.

Lefty Snyder, Newark's great pitcher made the first error of the season in Coshocton when the Idlewilde team played there. Lefty was asleep in bed and was dreaming of doing things on first, which position had been assigned him for the next day. Lefty made an effort to catch a hot liner and fell out of bed. The reporters heard of it and that is the reason why Lefty was credited with an error in the next day's game.

After an illness for a month Tim Kevin, the well known Columbus ball player died Friday morning at his home in Columbus with heart trouble. He was a prominent pitcher in the Southern league up until four years ago. He was well known by many Newark people, particularly baseball players.

### Denison Beats Ohio State.

Granville, O., May 14.—There was great rejoicing here on Friday evening when the news was received that Denison had defeated the Ohio State team at Columbus, 5 to 1. The college bells were rung for one half an hour, and the victory was celebrated by the students and citizens generally. The score:

Ohio State.....0 1 0 0 0 0 1 2-4  
Denison.....1 0 0 0 0 0 1 5-1  
Runs. Bellows, West, Ray and Felger, Weber, Chambers, Roodbach, Barton, 2 Stolen bases. West, Bellows, Leible, 3 Felger, Barton, Taylor. Sacrifice hits: Gould. Two-base hits: Gould, Weber, 2. Home runs: West. Hit by pitched ball: Santani. Taylor, Strick, out. By Felger, 3; by Chambers, 6. Passed ball, West. Time: 1:50. Umpire: Thayer.

During his stay in Newark he will be the guest of Pastor Schindler at the parsonage on Hudson avenue. Upon his arrival the rehearsal of the dramatic work will begin. Mr. Stephens who has been directing the chorus work during the past week has expressed his surprise at the many good voices he finds in Newark and the readiness their public school training affords in reading the many beautiful scores.

## Y. M. C. A.

Opened the Athletic Field Saturday Afternoon With a Baseball Game—A Well Equipped Grounds.

The Y. M. C. A. Athletic Field was formally opened for the summer Saturday afternoon with a game between the Newark High school team and the Denison second team. The game was called at 2:30.

The grounds are in excellent shape. The Y. M. C. A. will not have any regular team until after the High school team disbands, as many of the players are members of that team. In the meantime several picked teams of the Y. M. C. A. will play and in this way the best players of the association will be obtained.

The two tennis courts have been put in proper condition and a tournament will be started in the near future.

A new ticket office and dressing room has been constructed in the northeast corner of the field.

#### Waiting For the Word.

The advertising proposition all resolves itself into this: People in your community are thinking about your goods this very minute. They need them and will buy tomorrow. You need not attempt to rouse their interest by bizarre methods, for they are interested already. What the public wants of you is a clear statement of what you have to offer. That statement may be long or short. If nothing more than a price, it helps in making decisions. Simply say what there is to say in your favor. Say it briefly if possible. Say no more. Say it through the newspapers if you can.—Printers' Ink.

A basalt stele found by Rev. Mr. Scheil, a Roman Catholic priest, in the archaeological museum at Constantinople has on it an Assyrian inscription of King Nebuchadnezzar of the sixth century, before Christ, telling of the destruction of Nineveh. No other record of the kind has ever been found.

#### "GREEN SICKNESS"

The unhealthy complexion of green sickness is changed to the rosy blush of good health by Scott's Emulsion.

Green sickness is one of the forms of blood disease found in young women. The change from girlhood to womanhood often upsets the nervous system, weakens digestion and throws the blood-making organs out of gear.

Scott's Emulsion puts new heart into pale girls. It tones up the nervous and digestive system, and feeds the blood. It is a natural tonic.

Remember that 30 per cent. of these cases go on into consumption unless prevented. Scott's Emulsion prevents consumption.

We'll send you a sample free upon request.

### CUPID

DID A REMARKABLE ACROBATIC STUNT AT CAMBRIDGE

Young Man Secured License to Wed, But Returned Document Unused and Got Another.

Cambridge, O., May 14.—Cupid has been doing a few acrobatic stunts in this district lately that should give him a high salaried position in a four-ring circus. Little Dan turned a remarkable somersault recently that rent a proposed union in twain but brought two couples to the altar instead of one.

Last Monday Stephen Tomco was granted a license to marry Anna Solits and the wedding was set for Saturday morning at the Catholic church in Pleasant City. Immediately Cupid got busy, with the result that Friday the buxom Anna appeared in probate court with another son of Austria and asked that a license be granted to her and Michael Hadvavni.

While the affectionate young couple were still in court, Tomco, the former aspirant for the hand of the fair Anna, appeared and in the presence of the court and all the people assembled did then and there denounce the fair Anna as being no good and returned the license unexecuted.

He then asked for a license to marry Annie Melej, of Pleasant City, and it appearing to the court that the affections of all the parties were genuine and had been amicably adjusted, and that neither of said parties is on a habitual drunkard, epileptic, imbecile or insane, or under the influence of any intoxicating liquor or narcotic drug, and that there was no legal impediment to their marriage, licenses were issued to the four parties and they went their way rejoicing.

Mike and his Anna will be married at St. Benedict's church in Cambridge Saturday morning, May 21, and Steve and his Annie were married at the Catholic church at Pleasant City this morning.

### FINANCIER

Of Half a Billion Dollar War Loan Died at Tarrytown, N. Y., Friday

New York, May 14.—Alfrederich Smith Hatch, twice president of the New York Stock Exchange and at one period one of the leading financiers in Wall street, died at Tarrytown Friday.

He was 75 years old. He was a native of Vermont, and during the Civil war was in partnership with Harvey Fisk. The firm had the agency of the government in New York for the \$500,000,000 bonds for popular subscription, when Secretary Chase found the first resource of borrowing from the large banks had been exhausted. The firm of Fisk and Hatch was associated with Jay Cooke until it failed. In 1873, afterwards paying all obligations in full. Mr. Hatch was elected president of the exchange in 1883 and then re-elected for a second term. A few years later Mr. Hatch sold his seat on the stock exchange and retired from business.

Good society in Korea has many curious customs. One of these is that widows must not re-marry. No widow in the really "smart set" would ever dream of re-marrying, however young she may be or however soon the death of her husband may have followed her wedding.

### A BOY'S LIFE

Is Worth Twice As Much As That of a Girl Decides This New York Court

New York, May 14.—A legal decision was rendered in the Essex County court Friday that the life of a boy is worth twice as much as that of a girl. The decision was handed down by Judge Adams on a motion made by counsel for the North Jersey railway company to set aside the verdict of \$6,000 in favor of Evan H. Eastwood and one for \$5,000 given in favor of Henry Werpupp. Mr. Eastwood's son and Mr. Werpupp's daughter met death a year ago when a Lackawanna train collided with a trolley car, killing nine pupils of the Newark high school. In rendering his decision, Judge Adams said:

"Now a woman may become a bread winner; a man must be one. If Miss Werpupp devoted herself to the career of a teacher, as she probably would have done, had she lived, she could after a few years, earn, if greatly successful at the most \$110 a month.

"Therefore, taking the mere optimistic view of her financial value, I thing Eastwood's expectations were at least twice as valuable as those of Miss Werpupp. I decide that if the plaintiff in her case shall elect to take \$2,000 in place of the \$5,000 awarded, judgment may stand in that amount."

### DECEPTION

Alleged by Woman Who Says She Will Prove She Is Millionaire's Lawful Wife

Chicago, May 14.—Alleging that she is the victim of base deception Mac O. Russell of this city, has instituted proceedings to set aside the court decree that she is not the wife of Wm. J. Russell, the Lima millionaire. She says she will tell in Court the story of a romantic marriage aboard an Atlantic liner between New York and Venezuela and of alleged adventures in New York, Alabama, Illinois, West Virginia and South America.

The alleged wife of Mr. Russell claims that she was deceived by representations that Judge Tutill, who heard the case, would enter a different order. She says that the real evidence will show that she undoubtedly is Mr. Russell's wife.

### FATAL ACCIDENT

Happened to a Woman, Near Bucyrus, in an Extraordinary Manner—Slowly Strangled to Death.

Bucyrus, O., May 14.—A frightful and peculiar accident took place at the home of J. T. Lutz, south of this city, Friday. Mrs. Lutz went to the barn to bring in some chickens from a setting hen. The nest was in a piano box which sat parallel to the mangers.

She got into the box by raising the lid, but her weight overbalanced the box and it fell. The woman evidently felt the box going over, and in order to see what the trouble was, she thrust her head out of a hole at the top, just in time to have her head caught between the edge of the hole and the railing of the manger close to which the box fell. The hole in the box was not large enough to allow the woman to get her hands out to extricate herself and she was slowly strangled to death.

Her son found the dead body a few hours later.

### WOMAN

Saved From Drowning by Secretary Shaw's Son While Canoeing in the Surf.

San Francisco, Cal., May 14.—Earl B. Shaw, son of the secretary of the treasury, was the hero of the hour on board the Doric.

While the Doric was in Honolulu a party of passengers, consisting of Mrs. C. S. Barff, the wife of a wealthy business man of Shanghai; Captain Edward Loyl, Earl B. Shaw, Captain H. Barnes and D. Kerr, decided to indulge in the exciting pastime of canoeing in the surf. While returning to shore the canoe was capsized.

All the men of the party managed to grasp the outrigger, but Mrs. Barff was thrown 10 feet away, and was in imminent danger of drowning. Young Shaw, seeing her peril, swam to her, and just as she was sinking grasped the drowning woman and returned to the overturned raft.

Most people don't eat too much—according to their appetites.

The trouble is that appetite (in these cultivated days) is no longer the trustworthy guide it was designed to be. It's apt to play hob with the machinery.

The beauty of "FORCE" is that it fits any appetite, and makes digestion wait upon it.

*Bunny Jim*

If "FORCE" simply made people happy, nothing more, it would be a power for good. But when you know it makes them strong, energetic, useful—millions of them—think how it must be pushing the world ahead. WD-34

### NARROW ESCAPE

Of Five Workmen, Who Fell From High Platform With Heavy Safe Friday.

Five workmen had a very narrow escape from serious injury and possibly death at the factory of the Newark Artificial Stone and Plaster company in the western part of the city.

They had been engaged in unloading a lot of furniture from a car to the building and had erected a high platform from the car to the office door. The men started to bring a heavy safe across and when partly over the platform broke and the safe and men were thrown to the ground. As it happened none of the men were injured seriously, a couple of them having received slight bruises. The new plant is now employing about 25 men.

Bobby—I got a new bat today and I am going to give those kids a few pointers on baseball. Just watch me soak Marjie on the coco!

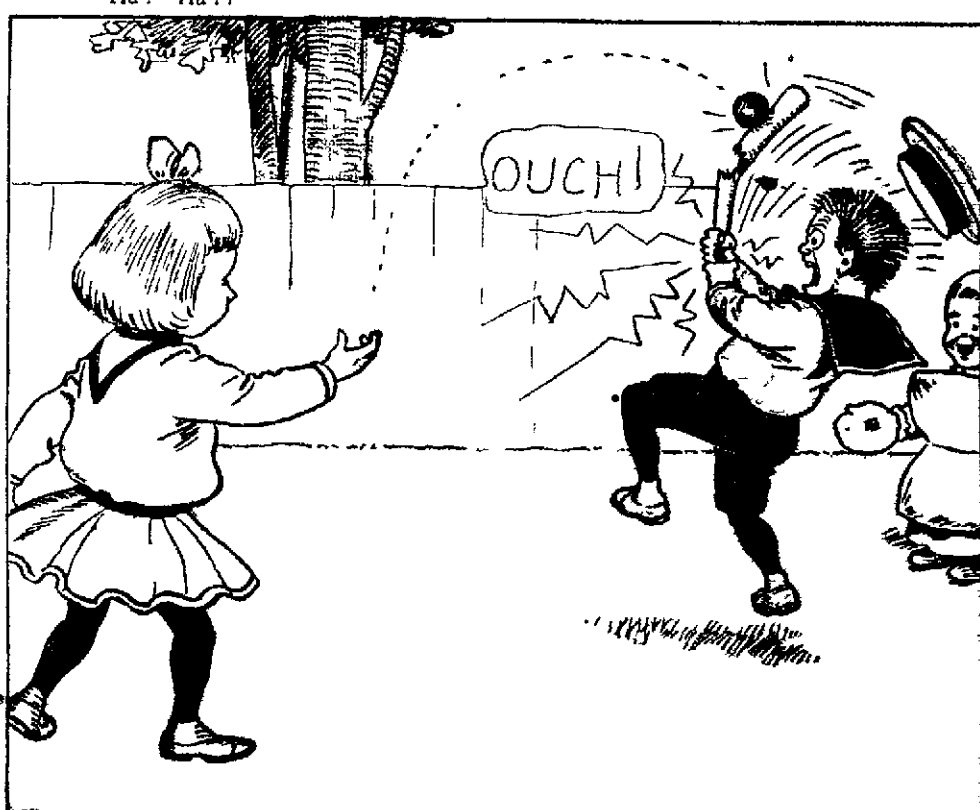

Bobby—Socko! There's a nice easy one! Why didn't you hit it with the bat? Ha! Ha!!

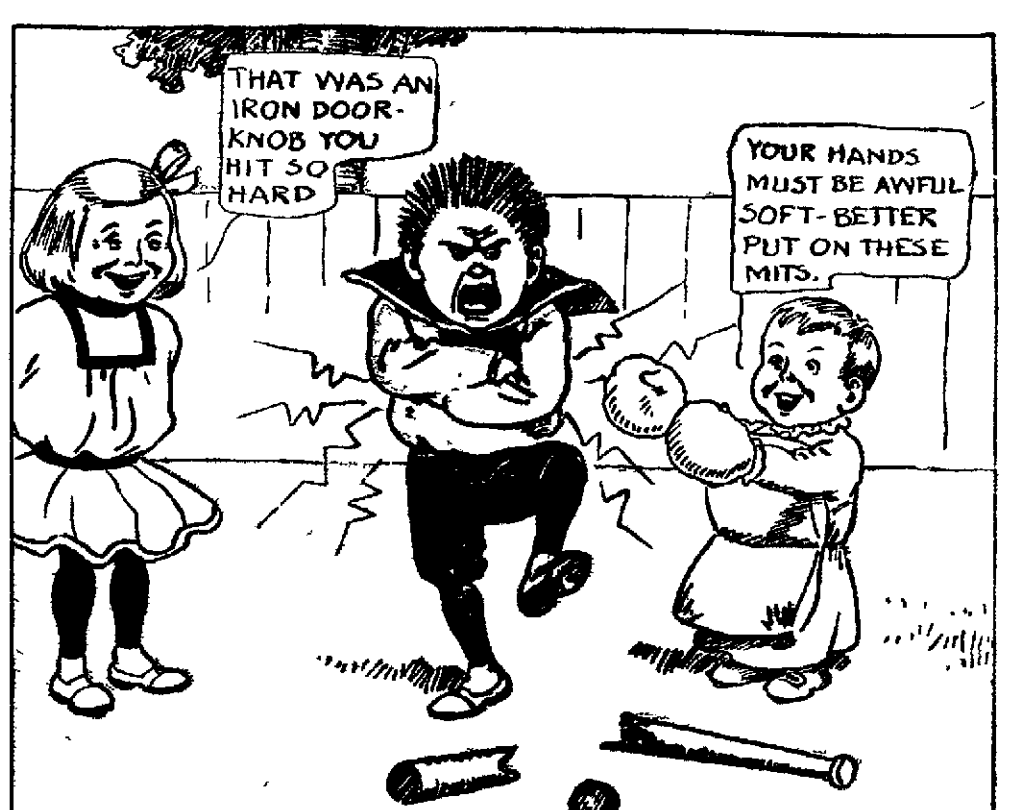

Bobby—Here, I'll let you pitch them and I'll take the bat.

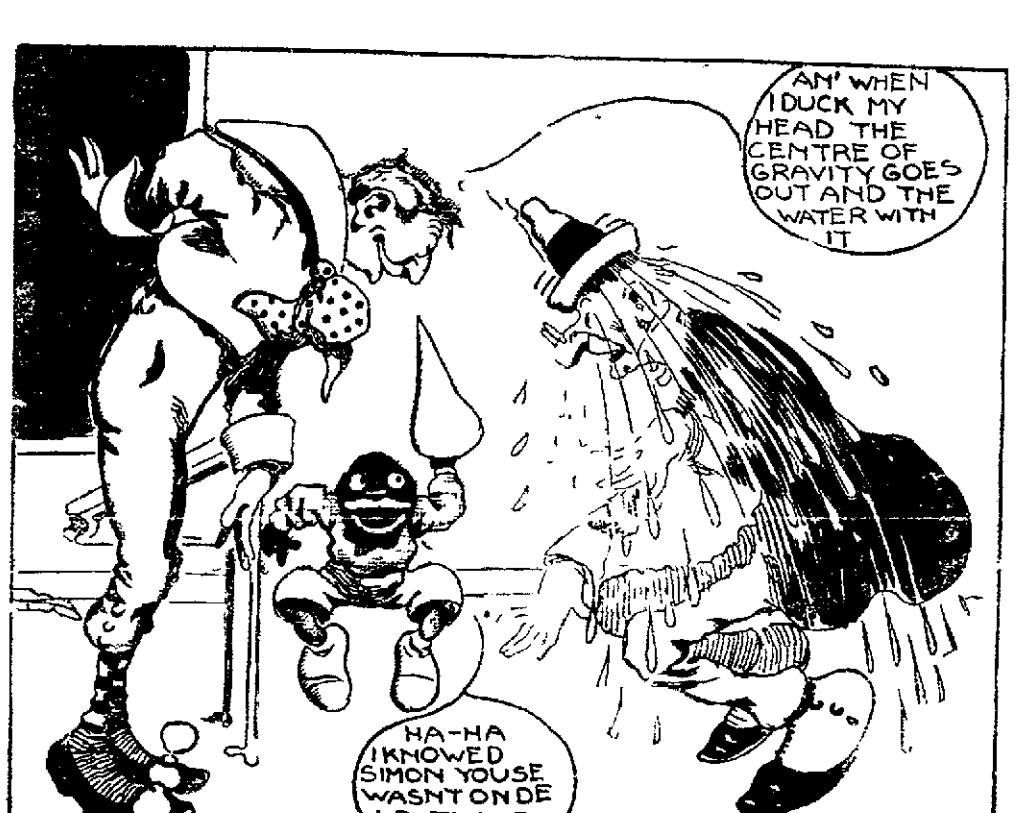

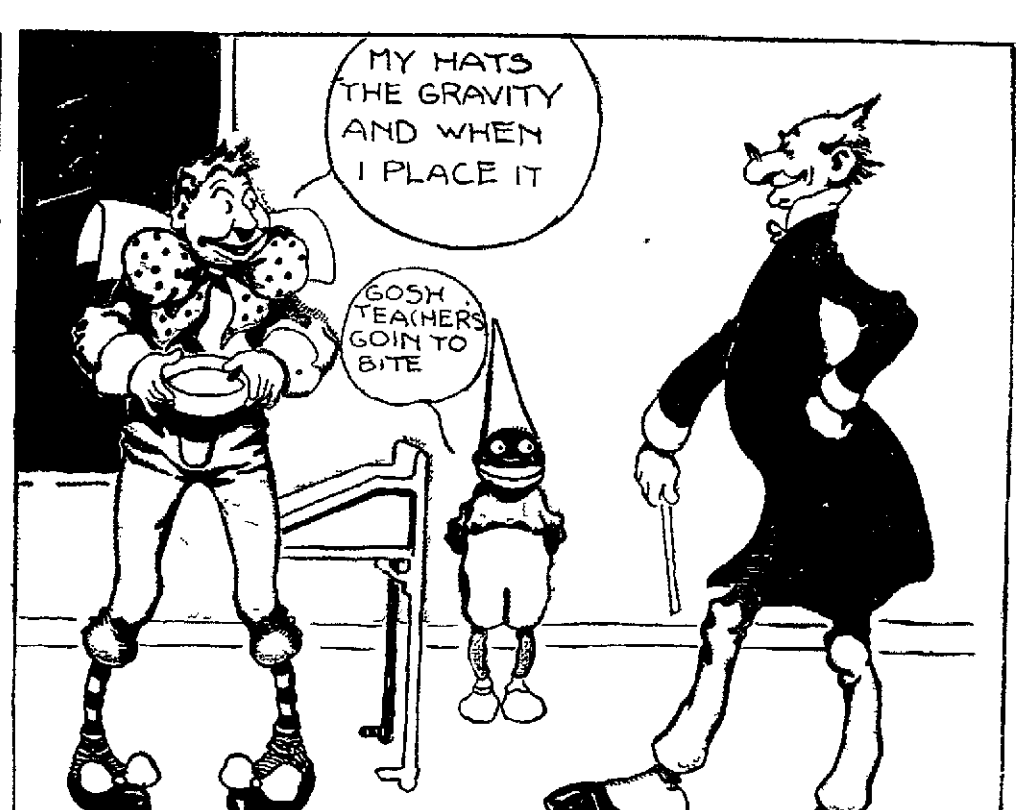

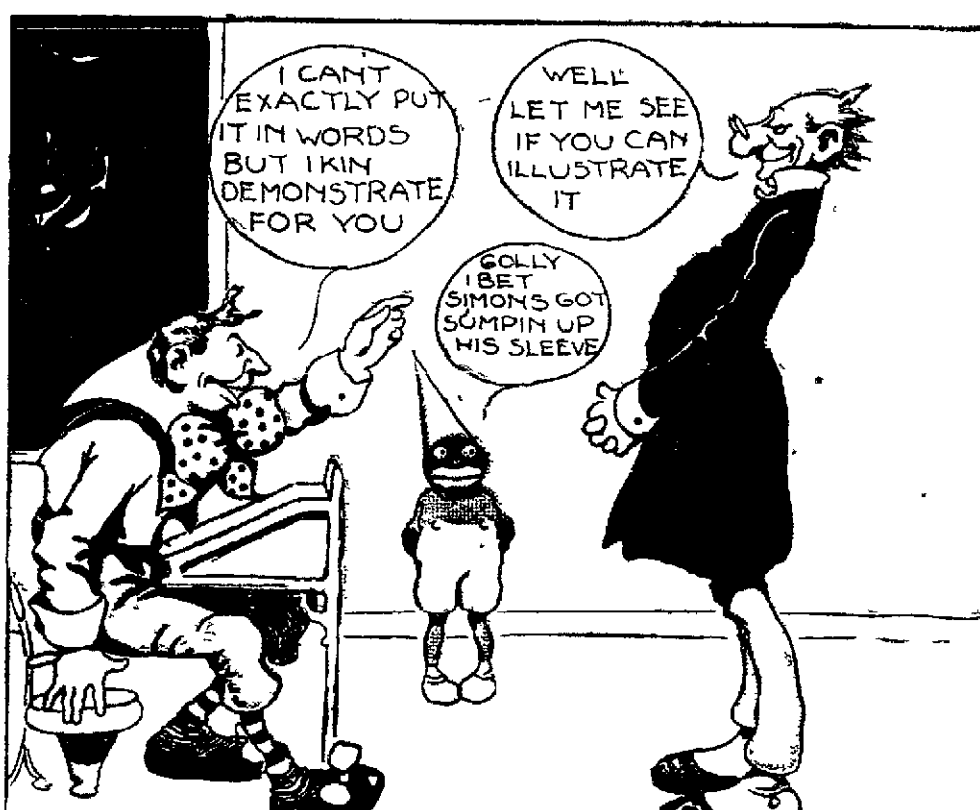

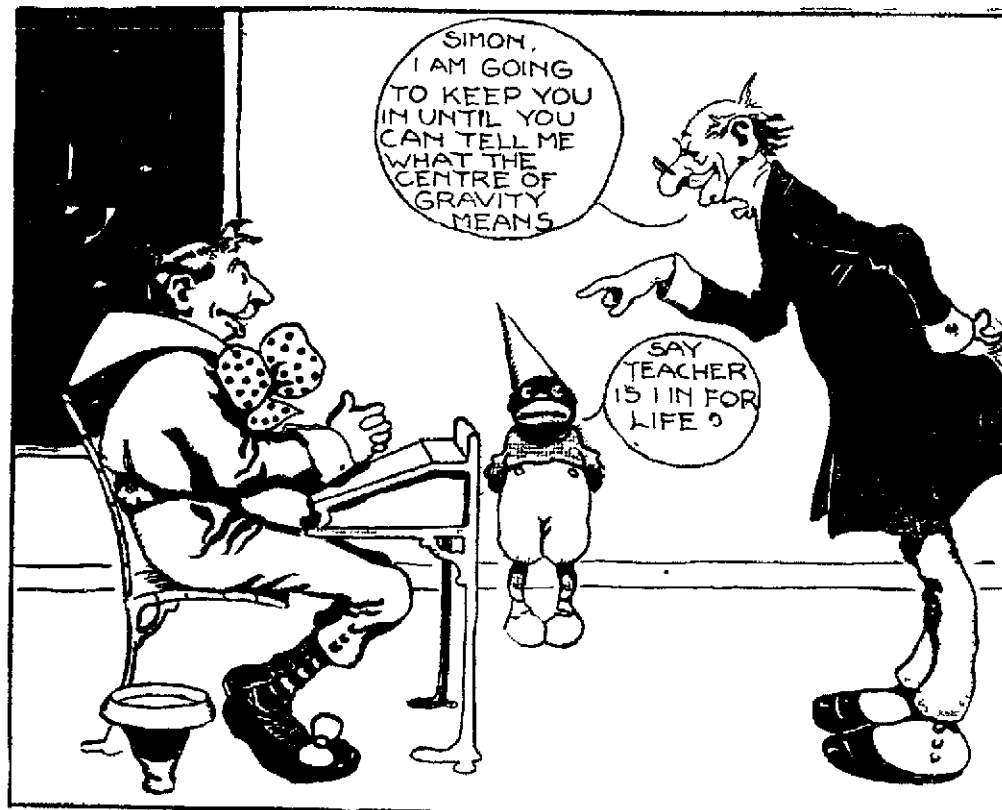

Marjie—I'll pitch up this iron door-knob instead of the rubber ball.

Marjie—There's a nice easy one—how do you like it? Ha ha! Ho ho!

Bobby—Oh, my hands! And my new bat smashed, too! You kids are too rough altogether! (Copyright, 1904, by T. C. McClure)
